RE: Clean Harbors Recycling Services of Chicago, LLC  
Site ID #: ILD 005450697  
Hazardous Waste Export Report 2010

Dear Sir/Madam:

Pursuant to the requirements of the US Environmental Protection Agency hazardous waste export requirements, attached is a hazardous waste export report for the reporting year 2010 for the Clean Harbors Recycling Services of Chicago, LLC located at 1445 W. 42<sup>nd</sup> St., Chicago, IL 60609.

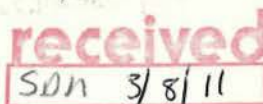

For additional information regarding this report, please contact me at 773-247-2828 x1469.

"I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment."

Sincerely,

A handwritten signature in blue ink that reads "Gary Malinowski".

Gary Malinowski  
Sr. Compliance Manager

= 205,416 gal/yr

**Consignee #2, Stream #001**

**Blended/bulked non-halogenated rich organic liquids and slurries**

EPA hazardous waste number(s): (see Attachment B)

DOT hazard class: **3**

DOT ID No. **UN1993**

Name and US EPA ID number for each transporter: (see Attachment A)

Total amount of waste shipped: **14,650 gallons.**

Number of shipments for 2010: **3 loads**

Efforts taken to reduce the volume and toxicity of the wastes generated:

The Clean Harbors Recycling Services of Chicago, LLC facility recycles hazardous and non-hazardous waste from large industrial customers. The facility processes the majority of its customers waste streams on a tolling basis. That is, the facility develops a process for the customers waste stream, and according to the customers specifications, reclaims the product for return to the original customer. At times the facility will obtain waste streams from an industrial customer and process the waste to recover a useable product for sale on the open market. It is therefore the facility's practice and in our best business interest to recover as much of the waste stream's organic solvent product as possible in order to obtain the highest yield of product for reclaim and/or resale. Therefore, the facility endeavors to keep the unrecoverable portion of waste volume to a minimum percentage of the total volume of the original waste stream.
